Commitment to Quality

At Accumed, we take our role seriously in facilitating rapid and accurate diagnosis with our results. Therefore, Quality Control and Assurance is a top priority. Accuracy and quality of results is assured through strict internal and external guidelines including:

- ~ Review of specimen integrity prior to analysis ~
- ~ Supervisory review and repeat analysis of abnormal results ~
- ~ Quarterly proficiency testing with American Association of Bioanalysts (AAB) ~
- ~ Regulatory oversight by The Joint Commission (JCAHO), CLIA & The New Jersey Department of Health and Senior Services ~
